8/29/69

Dear Dick,

Thanks for the copy of your article.

Hear you've done a book, too.

Did have a pleasant visit with Bob Cutler. Very nice guy.

I told Longbottom to write you because he may have photogrammetry facilities available in England.

I've just finished and am reading and correcting a book-length addition to one of the limited editions I've done. Keeps me busier than the busy usual.

No word form N.O. , where I'm as unpopular as a man can be who accurately calls the shots in advance. Have you gotten any of the transcripts? Some of very good, important. Oser did some fine work, with Alford. Two nice guys.

Thanks and best to everyone.

Sincerely,
